St Catharines Forklift Training Courses

St Catharines Forklift Training Courses - Our forklift operator safety training has been customized for illiteracy, thereby cutting the training time in half. We offer lift-truck operator driver safety training evaluation, train the trainer and forklift training certification programs provide thorough, regulation-compliant training in industrial-powered fork truck utilization and safety. Lift truck pedestrian safety is provided too.

Learn with our highly skilled group of professionals to make certain that your employees are as well-trained as possible. Forklift certification is delivered on site by licensed instructors with many years of practice. Trainees would know how to recognize hazards and perform safety checks needed for the safe and efficient use of a powered industrial lift truck.

Forklift Training Guidelines
It is essential that all workplaces making use of forklifts have the checklist below or one equivalent on the premises. If all of the safety regulations are being followed, each of these questions should be answered with a "yes". A "no" to any question indicates a procedural flaw that might lead to injury, damage to machinery or accident.

1) Is the operating area of the forklift separate from the traffic of pedestrians?
2) Is access to forklift areas by pedestrians restricted by a barrier?
3) Are pedestrian walkways provided and well marked?
4) Are "forklift in operation" signs visibly clear?
5) Are mirrors for drivers and pedestrians provided at blind spots?
6) Are alterations to daily forklift schedules communicated to all affected employees?
7) The forklift tires being utilized are suitable for all operating surfaces?
8) Forklift seatbelt is being used?
9) The forklift seat is in good condition?
10) Is a regular forklift maintenance schedule followed?
11) Is a yearly forklift inspection and certification done?
12) Is the forklift right for the required tasks?
13) Does forklift has a readable load chart?
14) Do all operators know how to read the load chart?
15) Does the chart list the safe capacity for various uses and attachments?
16) Do the forklift warning devices work correctly?
17) The speed operating control device is secured correctly?
18) Is overhead cage fitted right on the forklift?
19) Do the operators of the lift truck have certifications to utilize the machine?
20) Warning signs and speed limits are being observed?
21) The operators have current training for the lift trucks being used?
22) Forklift operators know their duties to report the damage to the machinery and other lift truck accidents?
23) Is the pre-test checklist reviewed on a daily basis prior to the machine being utilized?
