

## St Catharines Aerial Lift Train the Trainer

St Catharines Aerial Lift Train the Trainer - The train the trainer program for aerial lifts helps to teach the trainers how to safely train potential operators in an industrial setting. Trainers would be provided with in-depth instruction about the workings of aerial lift machinery. The program is offered on an open enrollment basis and delivered at selected training sites. Prior to certification, trainers are assessed and scored based on their understanding and demonstrated skills.

The Aerial Lifts Train the Trainer Certification Program focuses on practical learning and as the top training provider in the industry, we provide top notch hands-on training. We offer plenty of opportunities to practice the concepts and techniques that are taught inside the classroom. In addition to hands-on experience, trainers develop general understanding of machine theory and instructional techniques, field and classroom communication skills, and ability to efficiently train and assess operators. Trainers will gain knowledge about what traits make a successful trainer.

The Aerial Lifts Train the Trainer Program likewise teaches the right techniques necessary to express the correct information inside the classroom and field environment. There are three aspects of machinery operation that the trainer must learn how to convey to operators: what to carry out; how to do it; and why it should be carried out.

The program offers detailed, up-to-date reference material to be able to help trainers convey the subject matter to machine operators. Instruction manuals contain detailed information about all aspects of industrial mobile equipment operator training. Included in the package are training aids that provide a visual reference to enhance the learning experience. The equipment-specific training products contain important materials meant for both the trainer and the operator: overhead transparencies, videos/DVD's, kinds of equipment, safety message posters; digital training aids and stability pyramid.
